

COMPETITION SERIES

OLYMPIC BAR

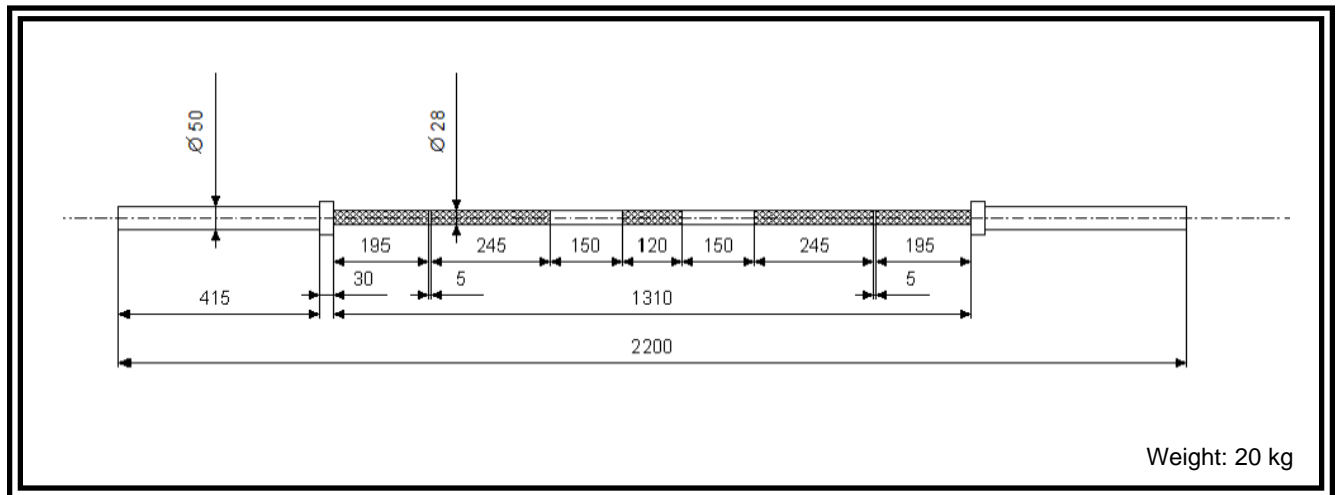

NEW FROM IRON GRIP >>> Competition Series Olympic Bar

Iron Grip is introducing a new product to its family of premium Olympic bars, the Competition Series Needle Bearing bar.

- Suitable for International Weightlifting Federation (IWF) Olympic-style competition, and built exactly to IWF specifications.
- Built with a 28 mm product-specific premium steel shaft, with a durable Hard Chrome finish.
- Features a proprietary, innovative swaged steel sleeve/collar assembly, developed in-house.
- Each sleeve houses a specific combination of one heavy-duty ball bearing and four needle bearings, designed to provide free and constant sleeve rotation and hard-wearing durability.
- An additional proprietary snap ring locking system secures the shoulder bearings in position, further adding to the bar's maintenance-free, heavy-duty durability.
- Made entirely in the USA, in Iron Grip's own on-site facility.
- Iron Grip's Competition Series Olympic bar is the ultimate Olympic lifting bar on the market, built to the same exacting standards as Iron Grip's premium dumbbells and Olympic plates.

Description	Commercial List Price
Competition Series 7' Olympic Bar	\$670.00
